ELNA / JANOME - GENERIC ACCESSORIES

The Elna sewing machine accessory is sometimes compatible with the Janome model, because sewing machine parts are manufactured by Janome for many well known brands on today's high street. And although the Janome accessory part number is different to that given to Elna, when used, you will find works perfectly satisfactorily for both machines. You may therefore find a dual branded accessory provided and you are able to compare the part numbers using our list here.

Accessories

Elna UK sewing machine Accessories

Elna / Janome - Generic Accessories

The Elna sewing machine accessory is sometimes compatible with the Janome model, as sewing machine parts are manufactured by Janome for many well known brands on today's high street. The Janome accessory part number is different to that given to Elna, but used, will work perfectly satisfactorily for both machines. You may find a dual branded accessory provided and you may now compare the part numbers using our list here.

Ordering

Please contact your Elna Centre for supplies - these are listed on the www.elna.com website under stockists. They are listed in alphabetical order by town.

Development

The Elna UK distribution is being re-developed over the next few years. Therefore please keep accessing the Elna UK website for updated information regarding the full Elna UK product portfolio. Such is the uniqueness given to the Elna product that you will see major developments regarding the Elna Quilting Association and from early new year, the Elna School of Embroidery.

No other sewing machine company will match the array of exclusive developments for the new Elna UK product portfolio.
